

Integrated Solutions

Ability to integrate and automate all systems to handle your product from initial process to finished product.

300 PSI Cleaning • 10,000 PSI Deburring
 Vacuum Drying

Cleaning Systems

Cell Washers • Conveyor Washers
 Vertical Agitation Washers • Specialized Washers
 Rotary Drum Washers • Ultrafiltration Systems
 Solvent Systems • Ultrasonic Systems

High Energy Finishing Systems

Vibratory Finishing
 Centrifugal Barrel
 Disc Finishing
 Multiple Pass Systems
 Centrifuge Recirculated Waste Systems
 Dry Finishing in all Styles*
 *No waste water

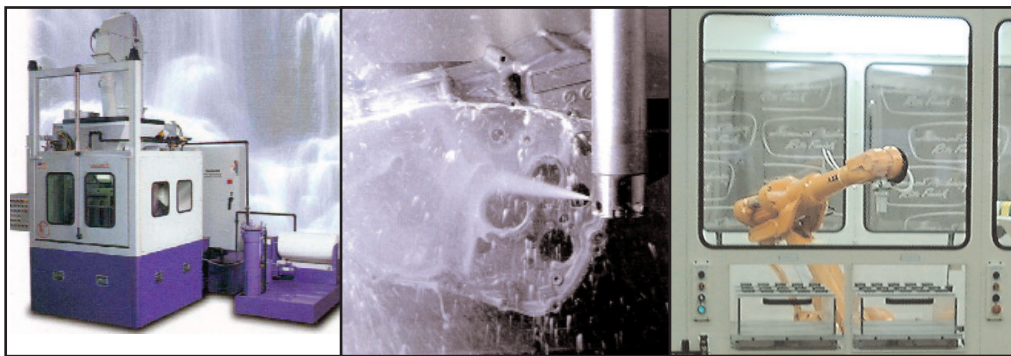

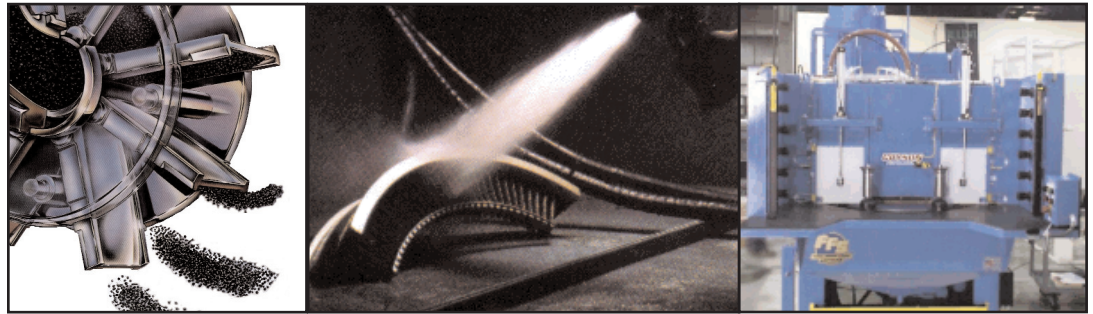

Consumable Supplies

Baskets, Containers, Fixtures
 Ceramic, Plastic, &
 Steel Media
 Chemical Solutions
 Shot & Grit
 Abrasives & Glass Beads

Blasting Systems

- Wheel Blasting
- Slurry Blasting
- Automated Blast Systems
- Blast Rooms

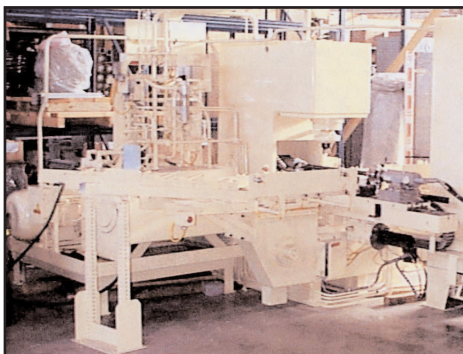

Specialized Finishing Systems

- Cascade Finishing for Internal Passages
- 10,000 PSI Deburring & Cleaning
- Robotic Finishing Systems
- Buffing and Polishing Systems

Application Specific Finishing

- TEM - Thermal Energy Method
- ECM - Electrolytic Machining
- AFM - Abrasive Flow Machining

Straightening Presses

- Manual & Fully Automatic
- High Tonnage Systems
- Conversion and Rebuilds
